**420**

Start-Ups &  
Researchers Engaged

MORE THAN  
**150**

International  
Speakers

MORE THAN  
**20**

Countries  
Represented

The Climate Solutions Prize started in Israel, known as the Startup Nation, and expanded to Canada, to galvanize increased investment and focus from the best talent toward developing breakthrough solutions to solve the climate crisis;

The Climate Solutions Prize has facilitated the awarding of over \$2.5 million in funding to promising researchers and start-ups and brought together over 2,000 participants at its Climate Solutions Festivals in its inaugural year and was nominated for 2023 Collaboration of the Year at the Startup Community Awards ;

We are creating the largest incentive prizes for entrepreneurs and researchers for climate solutions and are bringing together the leading experts to advance climate innovation while driving the green economy;

With a common objective of raising global awareness and harnessing the CSP recipients' technologies to help save the world, we're soliciting your support for the upcoming Climate Solutions Gala to be held in Montreal on June 19th, 2024;

# CLIMATE SOLUTIONS PRIZE

2023-2024 | CLIMATE SOLUTIONS PRIZE

## WHY A PRIZE?

Many prizes have resulted in major impact development in the world of science and have helped change the world. The Climate Solutions Prize incentivizes innovations and helps bring cutting edge solutions to the forefront at a much needed accelerated pace.

The CLIMATE SOLUTIONS PRIZE will offer prizes totaling over **\$1M** towards solving the climate crisis.

This is a unique opportunity for researchers, not-for-profit, NGO's, incubators, and students across Quebec to compete for the local prize and help bring Quebec to the forefront of the battle against the climate crisis.

Montreal is known as one of Canada's premier tech hubs and ranks highly across North America

SpaceIL, an Israeli organization won the Google Lunar X Prize and launched a spacecraft to the moon

In 1990, before Google, 3 McGill University students created a searchable database called Archie

Israel has more Nobel Prizes per capita than the United States, France & Germany

Montreal is the 3rd largest producer of video games in the world

Israel has the 2nd highest concentration worldwide of tech start-ups

Montreal is becoming a tech hub for start-ups creating cutting edge technologies & software advancements

# CLIMATE SOLUTIONS PRIZE

## THE PROCESS

CLIMATE SOLUTIONS PRIZE

The best and brightest innovators in the field of climate solutions will have the opportunity to submit their applications with the ambition of becoming the winners of the Climate Solutions Prize. Applications will be enabled through the prize's website, [www.climatesolutionsprize.com](http://www.climatesolutionsprize.com).

Two scientific committees will review and compare their selections and present their mutually agreed-upon top 25 choice to a panel. The panel will in turn narrow the select 25 to the most promising 10-12 for the International Prize Jury.

The International Prize Jury, composed of business and scientific leaders, will select the winners (maximum 4) during a live mediated shark-tank like competition.

# CLIMATE SOLUTIONS PRIZE

WE ARE ALL PART OF THE PROBLEM, WE MUST ALL BE PART OF THE SOLUTION!

## QUEBEC HOLDS SOME OF THE ANSWERS

The Climate Solutions Prize & Festival in Quebec galvanizes local climate tech innovations and provides funding to propel new technologies even further.

The 2024 Climate Solutions Prize Quebec competitions will offer over **\$500,000** in funding with additional challenges to be announced! In addition to the increased funding, additional sector focused corporate challenges will be added to provide more opportunities resulting in bringing solutions to market at a faster pace.

Through collaborations with our partners, in 2023 a variety of prizes were awarded to top climate-tech researchers and entrepreneurs.

At the 2023 festival in Montreal, \$300,000 in prizes were awarded to researchers and entrepreneurs.
